Aktualisiert 07.05.2016

Ersatzteilekatalog 2016-2017

Die in diesem Kataloge aufgeführten original Hersteller Teilenummern sollen dir nur helfen die richtigen Teile zu finden. In diesem Katalog gibt es keine Originalteile, alle Produkte stammen von Zulieferern oder sind Nachbauteile.

Aber du wirst hier viele Teile finden die die Schlittenherstellern nicht mehr liefern können...

Der Katalog ist überwiegend auf englisch Übersetzungstools findest du hier:

<http://www.dict.cc/> oder <http://translate.google.de/>

Das ist der Katalog eines skandinavischen Großhändlers, von dem wir der Deutschland Distributor sind. Das meiste sind Bestellteile, wir bestellen normal nur 1-2x im Monat, da die Versandkosten sehr hoch sind. Wir können aber auch kurzfristig liefern, müssen aber dann das Porto mitberechnen. Normal beträgt die Lieferzeit bis die Teile bei uns sind 2-5 Werktage

Shortblock, kit

Available with short delivery time.

Short block includes:

- rebuilt crankcase
- new pistons
- rebuilt crankshaft
- replating cylinders
- new gasket set
- new bearings
- breaking in oil 500 ml
- rotary valve shaft

Note: price does not include core exchange

Kurbelwellen, rebuilt

Rebuilt crankshafts:

- all bearings
- centrum oilseals
- connection rods
- 1-year warranty
- with grease (if needed)

Important notice of the crankshafts

Important:

Allways refer to the engine manufacturer´s shop manual for crankshaft installations.

Before closing the crankcase, make sure that the crankshaft fits firmly in the crankcase.

Before and after installing and torquing crank case bolts, be sure that the crankshaft turns smoothly. You must refer to the engine manufacturer for the proper bearing grease application. Bearings may be damaged if the grease is not applied properly.

Break-in-period:

There is never a more important period in the life of your engine than the break-in period.

For the first 10 hours, do not put an excessive load on the engine. Avoid prolonged full throttle operation. Also avoid lugging the engine such as laborious operation in wet snow. If an abnormal condition is noticed, such as excessive vibration or noise, consult the engine manufacturer´s shop manual.

Warranty:

Rebuilt standard parts will be guaranteed for a period of one year starting at the invoice date.

IMPORTANT NOTICE

CRANKSHAFT INSTALLATION INSTRUCTIONS

Kurbelwellen-Lagerfett

35-900 Lagerfett 300 g

35-901 Lagerfett 50 g

Verwenden, wenn die PTO und / oder MGT Kugellager ist ein umschlossenen Raum.

Keilnut 8 mm
Wenn die Welle 22,2 mm;
Keilnut 6mm
Aber 14-6038 ist 5 mm

Einstellen
Bei einer neuen Kupplung oder bei Reparatur der alten, immer daran denken, das die Kupplung vorgespannt werden muss, sonst funktioniert die Kupplung nicht.
Nie Fett an den Varios verwenden.

Powerline

Überprüfen Sie die Powerline mit 12 mm dicken Eisenstange. Wenn es keine Gummi stopfen Abstellen des Motors zu drehen, wenn mit dem Gas, dann Y muss 1,0 - 1,5 mm größer als X Beachten Sie auch, dass aufgrund der geringeren clutch, ändert sich der Abstand Z in Service-Handbuch nicht vorhanden . Es ist etwas anderes, aber der Unterschied ist akzeptabel.

Powerbloc 80

Wartungsfreie Kupplung jetzt für leistungsstarke flüssigkeitsgekühlte Motoren
 Diese Kupplung hat keine Arme, Hebel oder andere Teile, die beschädigt werden können.
 Sehr zuverlässig. Auf der Kupplung kann der ursprüngliche Anlasserzahnkranz montiert werden.

Kupplungen sind vorkalibriert,

Die Kupplung wird seit 2008 sehr erfolgreich verkauft.

Polaris

15-84	Alle Motoren 488 cc	1989-

Additional lug edges for greater flex and improved traction in loose powder snows. Angled lug design to cup snow to improve forward traction and floatation. Calculated support columns to allow calculated cup and flex formation for unmatched floatation and lift of the vehicle. Provide Stiffness and support for wet heavy snow condition.

FEATURES

BENEFITS

- Lightweight – the NXT GEN MTN Track is the lightest MTN track in history and utilizes Camso leading edge track molding processes. Sizes available are lighter than any other track in comparable lengths – and even lighter than lower lug height models in similar/shorter lengths.
- New industry 1st 2.8" lug height. Vehicle fitment - clearance
- New optimized lug height for handling, agility and performance in all season riding conditions
- Go places where once only deeper lug tracks would go with less rider input needed
- With the new MTN track – riders have confidence to tackle the toughest technical tree riding, side-hill in the steepest terrains and reach new peaks in climbing. Rider input to initiate a turn or side hill is reduced by an excess of 20%. 25% less throttle is required to hold side hills or maneuver throughout difficult terrains.
- o Unmatched flotation and forward traction in all types of snow – flotation and traction of a 16-inch width track but the agility and handling of a 15-inch width product
- o Immediate lift, allowing snowmobile to stay on top of snow vs. trenching in soft, deep powder snow

Snowmobile production at Camoplast facility located in Tampere, Finland is being transferred and phased out. Snowmobile production for current production snowmobiles is being transferred to Plattsburgh, NY USA. For snowmobile tracks produced from flat press tooling for aftermarket service parts, production will be phased out.

Lynx 5900 how to replace a new model track

Cut the tubes

Weld the piece of tube between the tubes you cut.

The pieces are delivered with the track.

The weld has been done
This snowmobile has round rear wheels. You can replace also rear sprockets, if they exist.

You must replace also drive sprocket. It is only possible if there is a hexa drive shaft.

We prefer to use No Slip wheels

Runners, 12x12 Wear resistant steel

The runners are made of 450 Brinell wear steel, it wears evenly and not grab the stone, like a normal coromant runner. Long, up to three times the service life - less exchange work.
